

This extraordinary journey tracks in an archetypal context the roles, challenges, desires and laments inherent across the stages of women's lives.

Together we explore in depth 7 major archetypes & their shadows.

We bring to awareness those we are comfortable with and those with which we over &/or under-identify.

We use mythodrama to explore the myths and stories of old, process work and creativity to deepen our connection to the wisdom & movement to bring body-awareness, and in this way utilise these archetypes as a blue print for a new way of being women in this increasingly complex world of ours.

With the support of community, creative expression and awareness through process work & sharing, we find new choices for our feminine essences. In this expression, we find a myriad of ways to partner the Masculine we crave for in our men.

Women Journeying consists of 14 sessions, There are 365 days in a year, if you would like to let your soul life find connection and expression for 14 of them....
join us.
